DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see the Remarks, filed 23 June 2004, regarding an after final amendment has been carefully considered but not entered. It has been determined that a Restriction was required that should have been addressed with the amendment filed 02 January 2004. Consequently the Final Rejection is withdrawn in view of the Restriction to follow.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
- I. Claims 1-7, drawn to a connection between a telephone and a computer, classified in class 379, subclass 93.01, 142.15.
 - II. Claims 10-18, drawn to voice recognition, classified in class 379, subclass 88.01.

The inventions are distinct, each from the other because of the following reasons:

Group I is concerned with a particular connection between the telephone and computer whereas Group II discusses voice recognition and subsequent control.
